OMNI REPORT:

## FINANCIAL INDEPENDENCE

FEBRUARY 21, 2018

## METHODOLOGY

2

## QUANTITATIVE RESEARCH INSTRUMENT

An online survey of 1,000 Canadian women was completed between Feb 12-15, 2018, using Leger's online panel, LegerWeb.

The margin of error for this study was +/-3.1\%, 19 times out of 20 .

## ABOUT LEGER'S ONLINE PANEL

Leger's online panel has approximately 400,000 members nationally and has a retention rate of $90 \%$.

## QUALITY CONTROL

Stringent quality assurance measures allow Leger to achieve the high-quality standards set by the company. As a result, its methods of data collection and storage outperform the norms set by WAPOR (The World Association for Public Opinion Research). These measures are applied at every stage of the project: from data collection to processing, through to analysis. We aim to answer our clients' needs with honesty, total confidentiality, and integrity.

## THE MAJORITY OF WOMEN HAVE AT LEAST ONE STRUGGLE WHEN IT COMES TO THEIR FINANCES

AGREE
DISAGREE

Nearly nine-in-ten (86\%) women agree to at least one statement about their finances, with more than half (56\%) saying they do not have a written financial plan.

Roughly four-in-ten women agree they are not aware of their credit score (42\%), feel uncomfortable negotiating a better interest rate (38\%), and know very little about issues related to finance and investment (38\%).
Younger women (age 18-34) are more likely to agree they know very little about issues related to finance and investments, do not have a financial plan, have more debt than savings as well as feel uncomfortable negotiating a better interest rate.

Unsurprisingly, women who know very little about issues related to finance and investment are significantly more likely to agree with each statement.
